Find and save a recipe

From Home, search for a recipe, open it and keep it with the bookmark. If nothing matches, the search says so. Above each arrow, what is tapped; below it, why the next screen follows.

Browse a collection

From Home, open the Quick weeknight dinners collection, narrow it with a filter and open a recipe. Saving works as in flow 1. Above each arrow, what is tapped; below it, why the next screen follows.

Check a dish

From Check nutrition (the Nutrition tab, or Check nutrition on Home), search a dish, see what’s in it, adjust the portion and save it. A packaged product opens its label values, from the search or by scanning its barcode. Above each arrow, what is tapped; below it, why the next screen follows.

Build your own dish

From Build your own on Check nutrition: add each ingredient with its amount, calculate the nutrition and save the dish. A saved dish is edited in the same builder. Above each arrow, what is tapped; below it, why the next screen follows.

Profile: saved content and settings

The Profile tab holds the two saved areas, Saved and My dishes, side by side, and the App settings on the same screen. Above each arrow, what is tapped; below it, why the next screen follows.

1 Profile
Saved and My dishes, then App settings

2 Saved recipes
A filled bookmark tapped: the recipe leaves, “Removed” with Undo

3 My dishes
